Teach Your Children

Graham Nash

```
C              F
You who are on the road
             C                    G   -G7
Must have a code that you can live by
      C                 F
And so become yourself
             C          G        -G7
Because the past is just a good-bye.

C                       F
Teach your children well,
             C             G   -G7
Their father's hell did slowly go by,
      C                      F
And feed them on your dreams
             C
The ones they pick the one you'll
G         -G7
know by.

C                           F
Don't you ever ask them why, if they
                    C
told you, you will cry,
                      Am  - F
So just look at them and sigh
G            C
and know they love you.
```

```
        C              F
And you, of tender years,
                    C              G  G
Can't know the fears that your elders
G           -G7
grew by,
         C                          F
So please help them with your youth,
                     C              G
They seek the truth before they can
    -G7
die.

C                       F
Teach your parents well,
                C            G   -G7
Their children's hell will slowly go by,
           C                      F
And feed them on your dreams
                    C
The ones they pick the one you'll
G         -G7
know by.

C                              F
Don't you ever ask them why, if they
                       C
told you, you will cry,
                       Am  F
So just look at them and sigh
G            C
and know they love you.
